Re: *Worker Adjustment and Retraining Notification (WARN) Notice of Layoff at Boyd Corporation, 6136 N E 87th Avenue, Portland, OR 97220*

Dear Government Officials:

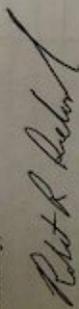

This letter is notice that Boyd Corporation (the "Company") intends to permanently close the Company's facility located at 6136 N E 87th Avenue, Portland, OR 97220. As a consequence, 40 employees at this location will be involuntarily terminated. The first layoffs at this location are expected to occur on or about April 1, 2022 (or during the 14-day period following that date). Additional layoffs will take place between then and October 1, 2022 when the entire facility will be closed.

The planned layoffs are expected to be permanent, and the entire facility will be closed. However, some employees will be offered an opportunity to transfer to other Company locations and/or to work remotely and so some portion of the workforce at this facility may remain employed by the Company following the facility closure. No union represents the affected employees, and "bumping rights" (that is, the right to avoid termination by displacing another employee) do not exist for the affected employees.

Attached as Exhibit A is a list of the job titles of the positions to be affected by this action, and the number of affected employees within each job classification, as well as the anticipated schedule of separation dates (if a schedule applies).

The information contained in this letter is based on the best information available to the Company at this time. If you have any questions or need additional information, please contact myself at (925) 409-5407. If there is any change in this information, we will update you as soon as practicable.

Sincerely,

Robert Ireland
Senior Vice President, Human Resources
